CHANEY
ENTERPRISES

"When we needed a materials and engineering expert, we retained the services of Tourney Consulting to provide us expert advice and innovative solutions. TCG provided unrivaled materials and engineering expertise, were easy to work with, and completed the project on an extremely tight timeline."

William F. Childs, IV, Chief Executive Officer
Chaney Enterprises, Gambrills, MD

"TCG possesses tremendous technical knowledge – especially in the realm of concrete life cycle analysis – and also have real world experience. They pull out all the stops to get a project back on track in a timely manner."

Henry B. Prenger, M.C.E., P.E.,
Technical Service Engineer
LafargeHolcim, Baltimore, MD

"When an expert is needed to solve and provide timely engineering support with excellent presentation of findings and also having the capabilities to be an expert witness, I never hesitate to recommend TCG."

Bob Swope,
President
Swope & Associates, Inc., Richmond, VA

"TCG's approach to evaluating existing conditions, considering different options to repair and restore, and then determining the life expectancy of any type of concrete structure, results in a report that is clear, thorough, and easy to understand. TCG is great to work with."

Timothy Gillespie,
Vice President Product Management
Sika, Lyndhurst, NJ
